Where should I send the package?	Don't forget:
DIESELCONTROL, s.r.o. Na Kocandě 342/31 412 01 Litoměřice 1 Czech Republic	• securely pack the returned parts • include this form in the package • provide your order number • provide the bank account for the deposit refund

HOW DOES THE DEPOSIT REFUND WORK?

1	After replacement, send us your original old parts.
2	Once received, we will check whether they meet the deposit refund conditions and are suitable for further remanufacturing.
3	If the conditions are met, we will refund the deposit to the bank account specified above.

Important: The refundable deposit can only be returned for a part that meets the conditions for further remanufacturing. The returned old part must be of the same brand and type as the purchased remanufactured part, complete, free from excessive mechanical damage and excessive corrosion. If the part does not meet these conditions, we will contact you.

By sending the old part, you confirm that you have read and agree to the deposit refund conditions published on the Diesel Control e-shop.
